

Pocahontas and History

As you watch the Disney video, make a list of those items you believe are historically accurate. Make a second list of items you believe are historically inaccurate. You should be able to find at least 10 items for each list.

When you have finished, write a page (250-300 words) answering this question:

If you were a high school history teacher, would you encourage students to see this film? Why or why not? (Pretend that it's not a film for kids.)
